Accellos

AccellosOne WMS

Built For
NETSUITE

WHY ACCELLOS?

Accellos is the leading supply chain execution software provider focused on solutions for small and medium sized businesses (SMBs). With over 3000 customers in 23 countries, our advanced WMS has been our competitive competency for over 20 years.

KEY BENEFITS FOR SMBs

- Improving accuracy, efficiency and compliance by just 2-5% can result in increased capacity and hundreds of thousands of dollars in annual savings

- Modular design with integration-friendly architecture makes it simple to upgrade or add new modules, meaning you only pay for what you need

- Most functionality is provided out-of-box, minimal customization will help reduce implementation costs

- Complete warehouse inventory visibility with dashboard analytics, pivot tables and 75 pre-built warehouse KPIs (e.g. monitor workforce productivity and order cycle time)

- Web-centric design gives you the ability to allow internal and external users visibility into the status of warehouse operations

- Role-based user-friendly interface that can be customized by the user for specific needs

- Excellent performance for 10-250 simultaneous warehouse users

- Typically 90 days to go live means faster ROI and higher profits

- Successful customers in the following verticals:
  - Multi-channel, wholesale distributors, 3PL, retail, ecommerce, consumer packaged goods, medical device supply companies, food distributors, apparel and accessory distributors, publishers and more
